A TREATMENT LIKE NO OTHER

THE **NUMBER ONE SOLUTION** FOR

DULL SKIN
FINE LINES & WRINKLES

STRETCHMARKS
HYPER PIGMENTATION

ACNE & SCARRING
DEHYDRATED SKIN

The images shown above are results from a course of multiple bespoke treatments to target specific skin concerns. Speak to your skincare practitioner about creating your treatment plan.

SIX STEPS TO YOUR BEST SKIN EVER

CREATE DRAMATIC AND LASTING CHANGE FOR YOUR SKIN.

SKINSTORM is more than just a facial.
It's your clinical solution to a total skin reset.

Six multi-layered treatments combine to create skin confidence, layer by layer.

SIX BESPOKE ELEMENTS

THE TREATMENTS

Speak to your skincare practitioner about creating your bespoke treatment plan, and start the journey to your best skin ever.

THE SKINSTORM FACIAL

SUPERCHARGED PICK-ME-UP.

Combining all the SKINSTORM elements in a bespoke six-step process, experience an amazing one-of-a-kind treatment. Perfect for creating an unparalleled rejuvenation to leave skin feeling renewed, refreshed and radiant.

ACNE ATTACK ICE FACIAL

TREAT PROBLEMATIC SKIN AT THE SOURCE.

This treatment gently peels and resurfaces, creating anti-bacterialisation at the source. The combination of Topical Dissolved Oxygen promoting a smoother texture reduces scarring and hyperpigmentation. This multi-action approach not only resolves current breakouts but also prevents future issues, leading to long-term improvements in skin quality, outbreaks, and tone.

PORE REDUCER

THE INSTANT PORE REFINER

This facial treatment combines all six elements, ensuring that even the largest pores are refined. Skin benefits from phototherapy light and high-pressure oxygen injection using a specially-blended serum of potent spot and pore refining actives.

INSTANT SKIN BOOSTER

THE FILLER WITHOUT THE NEEDLE

A unique and entirely bespoke mini facelift for areas that require more support and volume. The FGF-10 serum is blasted into the skin, creating a filler effect without a needle in sight. The pure strength Hyaluronic creates a mattress effect, plumping skin from the inside out. The result is a glowing, resurfaced, firmer-looking skin.

SURGEON PREP AND POST

RESURFACE, PEEL & OXYGENATE

Optimise skin health before and after any cosmetic or surgical procedures. Pre-surgery, you can ready the skin by resurfacing, peeling, oxygenating, hydrating, and plumping - ensuring it's in prime condition for the procedure. Post-surgery, this plays a crucial role in maintaining the skin's appearance, with light therapy and oxygen infusion aiding in smoothing and blending any scarring, helping to heal optimally.

THE PIGMENTATION BUSTER

A MORE EVEN SKIN TONE THAT LASTS

This treatment contains a unique and potent blend of safe, clinical-strength skin-lightening ingredients, known to help rebalance uneven skin tone. These actives penetrate the skin, reducing melanin synthesis at a cellular level and addressing the issue at its root. Visible results may be observed even after the initial treatment; however, a treatment course is recommended for comprehensive pigmentation treatment and long-term benefits. Diminish pigmentation, resurface scar tissue, and stimulate the production of new, healthy skin cells.

VITAMIN HYDRATION HIT

SUPER-CLEANSE, RESURFACE & HYDRATE

Revitalise and replenish skin that needs a serious rehydration or anti-ageing boost. A powerful solution for combating dullness and fatigue, transforming your complexion into a radiant and youthful visage. By combining collagen-stimulating elements, this treatment works to revitalise skin cells, enhance moisture levels, and promote a plump, glowing appearance.

STRETCH MARKS & ACNE SCARRING TREATMENT

This treatment stimulates a healing response without causing scarring - prompting a remodelling of scar tissue for a smoother and less noticeable appearance. Combined with intense oxygen skin saturation, this process aids in restructuring and renewing the skin, leading to improved texture and reduced visibility of stretch marks and acne scarring.

BODY TREATMENTS

Anti-ageing treatments don't need to stop at the face, treatment can extend to the décolletage, arms, hands and more - tackling sun damage, lax skin and wrinkles.
